

REMARKS

In response to the Office Action of June 3, 2005, applicant elects the group II claims, i.e., claims 9-15, directed to a composition.

The independent method claim 1 has been amended to explicitly recite the composition of claim 9, so that claims 1-8 will be entered as a matter of right, once the composition claims are found to be patentable.

With regard to the election of species requirement, the applicant elects the species wherein the tricyclic antidepressant compound is doxepin, and the non-narcotic analgesic is acetaminophen. Claims that read on this species are claims 1-15.

Respectfully submitted,

Sandra B. Weiss
